

Share of journeys by transport mode for Berlin – total traffic (2013)¹⁾

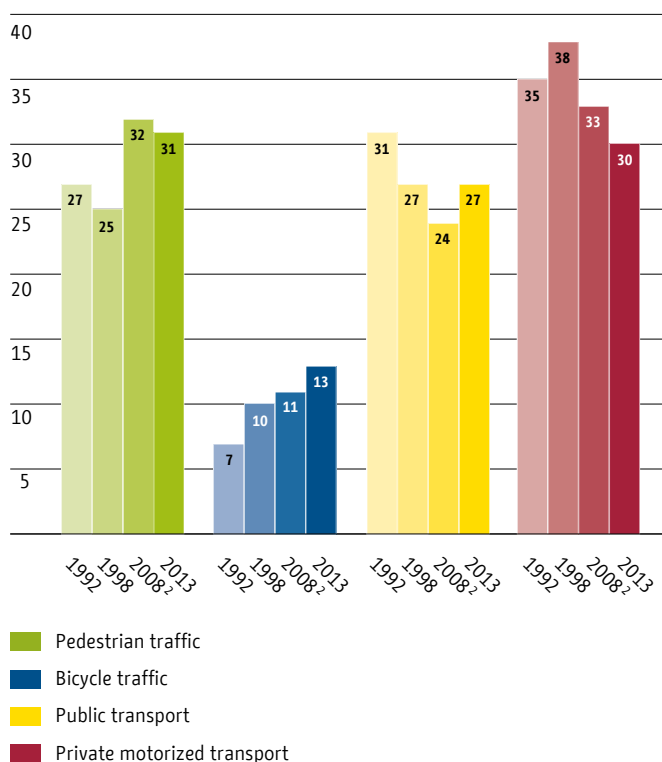

Share of journeys by transport mode for Berlin – internal, local trips (2013)¹⁾

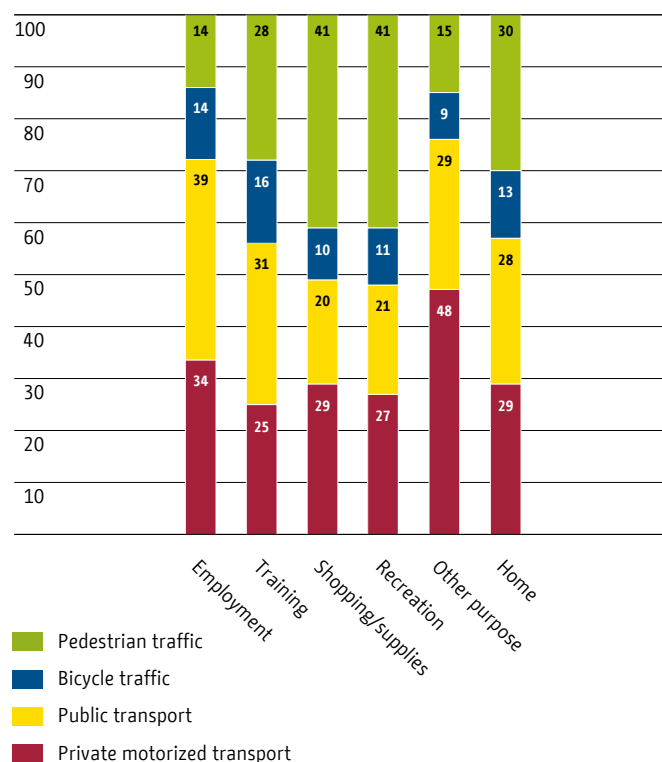

Choice of transport mode in total traffic (2013)¹⁾

Choice of transport mode in per cent

Use of transport mode by purpose of journey (2013)¹⁾

Choice of transport mode in per cent

¹⁾ Mobility in cities – the SrV (System repräsentativer Verkehrsbefragung – Representative Survey System) traffic census is carried out at five-year intervals. The next survey will take place in 2018.

²⁾ The results for 2008 have been subsequently systematically adjusted.
